

## Summary of Evaluation, Goods for Publication of Awards

The Royal Government of Cambodia (RGC) has received grant financing from the International Development Association (IDA) for the Demand for Good Governance (DFGG) Project. The development objective of the DFGG Project is to promote good governance in Cambodia in order to sustain economic growth and poverty reduction. The DFGG Project aims to improve governance quality in Cambodia by building the capacities of institutions, and supporting programs/projects and coalitions, that promote, mediate or address demand for good governance.

One of the state institutions selected for institutional support in accordance with the DFGG Project is the Arbitration Council (AC), a national quasi-judicial institution mandated to resolve labour disputes between employers and workers in Cambodia. The AC is supported by the Arbitration Council Foundation (ACF), a registered non-governmental organisation providing technical, managerial and financial assistance to the AC. The ACF is designated as the Project Implementing Entity for the *Support to the Arbitration Council* sub-component of the DFGG Project. It is intended that part of the proceeds of this project apply to eligible payment toward the cost of office equipment to operate the ACF project operation

The result of bid evaluation is shown in the below table:
